Dear Colleagues,

Support of French Public Employees Unions on their Strike on 10th of October

The Pancyprian Public Employees Trade Union, (PA.SY.D.Y), aligns with the rest of the European Trade Unions to support the fight of all French Public Employees Unions to increase wages, stop the job cuts proposed and worsening of conditions when ill, and we fully support your upcoming strike on the 10th of October.

Public Employees are not accountable for the economic crisis but they are the ones who carry the heavy burden of strict measures that affect the quality of their life and eliminate the work-life balance. Our fight in Cyprus stands on the same pillars and we are in fully alignment with your requests; it is the time to stop treating public sector employees as the scapegoat of the economic crisis.

Along with all the European Public Employees Trade Unions we demand an increase in wages, creation of job positions and the improvement of working conditions for all employees.

Best Regards,

.....
